Formula for GPA & CGPA

$$* \text{GPA} = \frac{\sum_i C_i Gp_i}{\sum_i C_i} \quad ** \text{CGPA} = \frac{\sum_i C_i Gp_i}{\sum_i C_i}$$

Where C_i - is the credit assigned to the course

Gp_i - is the Grade point for each course corresponding to the Letter grade obtained

\sum_i - is the sum for all courses registered during the particular semester in the case of GPA and all the semesters in the case of CGPA

Semester wise indicative percentage of marks = (GPA - 0.5) X 10

Overall indicative percentage of marks = (CGPA - 0.5) X 10

* GPA will be printed in a particular semester grade sheet if all the registered courses in that semester are successfully completed.

** CGPA will be printed in a particular semester grade sheet if all the registered courses upto that semester are successfully completed.
